Virginia Sánchez Marcos is Full Professor of Economics at Universidad de Cantabria in Spain. She received her PhD in Economics from Universidad Carlos III de Madrid in 2002. Her research uses quantitative dynamic models with idiosyncratic uncertainty. Her main line of research focuses on female labor supply decisions as well as the interaction with public pensions or maternity leave policies. She has also been working on gender inequality and household inequality.

Education

- Degree in Economics, Universidad de Cantabria (best academic record award). 1996
- PhD in Economics, Universidad Carlos III de Madrid. 2002.
